Reports from board members:

Mindy—will continue to monitor situation on when pool can and will open. Mindy keeps getting lots of questions from members. It is unknown at this point when or if opening can occur. Pool will be a 2-week process to fill and open. The pool has an area of 3500 sq ft for swimming and 3x that for a sitting area, so social distancing is possible. Mindy will prepare a letter for members explaining issues and possibilities of opening and implications of social distancing at a pool. Board members will read and comment on the rough draft and it will then be sent to members.

Rodney-Will plan a zoom meeting for the next meeting which will be May 13 to further discuss all these issues.

Pool manager Julie Schisler has concerns because many of the guards need training and there is currently nothing available d/t COVID 19, and the city is not currently giving lifeguard training.

Anne Sievers---a lot of families have questions, but if and when we have a season we will be ready to go, if the majority of league doesn't go there will be no swim team, but WBSC can do clinics instead. Meeting adjourned 752 pm.
